

## Practice Sample Test for Verbal Reasoning.

This test looks at your ability to recognise words of similar meaning and spell them correctly. On each line you will see a word, followed by a syllable of three letters. Think of a word starting with the three letters you have been given that means the same or nearly the same as the word on the left. Print or write your answer in full and remember to write clearly and spell the word correctly. Give yourself six minutes to answer these questions.
